**Brokers comments:** Hinckley Yachts is a semi-custom boat builder that has been owned by celebrities including Billy Joel.

Furthermore, this boat is a special version.

Aiming for a classic appearance + high sailing performance.

The hull material is S-glass and polyester for normal production manufacturers, but this boat's material is Kevlar and vinyl ester.

Although the construction time is significantly increased, it has high rigidity and durability.

Osmosis also does not occur.

The mast and boom were changed from standard aluminum to carbon.

The turnbuckle, rigging, and deck equipment parts have also been changed to higher quality ones.

The winch is also chosen in a larger size.

The keel and rudder are of standard shape but have been reshaped to be more appropriate.

.

The specifications and features of the <woodwork> in each location are different.

The shape of the deck cockpit has also been changed.

This model is a very rare boat worldwide.
